

Career Education

Business Technology - Medical Records/Health Information

The field of medical records is growing rapidly. The Health Information Technology program provides students with knowledge of the duties and responsibilities of health care managers. Through the use of textbooks, applications, and simulations, students are given the opportunity to develop the skills required

for this field. These skills include ICD 10 CM and ICD 10 PCS coding, insurance billing, medical transcription, records management, and reception area responsibilities.

Another offering in the Health Information Technology program is an Associate of Applied Science Degree in Business Technology with an option in Medical Records and Health Information with specific courses taken at either the Beebe or Searcy campus locations. This program takes two years to complete with the student taking courses on both campuses.

Students will have three (3) years from the date of enrollment to complete all requirements of the program. A student re-entering after the three-year time period will have to repeat all courses in the program

Associate of Applied Science

Business Technology - Medical Records and Health Information

Total Program = 60 Credit Hours

The fourth digit in the course number indicates the number of credit hours.

University Requirement - 1 or 3 hours

University Requirement

The 3-hour credit course is required for students who must take at least one remedial course. Students who are not required to take a remedial course may take the 3-hour credit course. In both situations, the courses (1-hour or 3-hour) count toward electives.
